

IN CASE OF EXTREME CONDITIONS

Rely on your Viking

ALL WEATHER PROOF
ALUMINIUM BOXES

VIKING

COMPETITIVE IN THE MOST EXTREME CIRCUMSTANCES

When circumstances are getting rough you can always rely on your strong light-weight Viking Box. Viking Boxes are the best choice when you have the highest demands to protect your valuable or fragile load during transportation or storage in every circumstance, even the extreme ones. You can always rely on your Viking.

Your perfect allrounder

Your Viking has specifically been designed to guarantee a safe storage and transport on every journey and expedition to any place in the world. Whether it is transporting valuable products, sensitive equipment or hazardous substances, the Viking is capable of doing it all: for industrial or private use, for use in extreme conditions or at the office, military specifications or food safety regulations. Even in the most extreme circumstances!

Unique benefits

Aluminium boxes have unique advantages: they are light-weight, impact proof, robust and built to last, ensuring your content is completely protected. Also, aluminium is unaffected by extreme cold or heat, is antimagnetic and rustproof. The Viking Box is equipped with comfortable handles, easily stackable, perfectly stable because of the typical yellow sturdy angle profiles and closable with yellow padded locks.

The choice is yours

The Viking range is known for its wide choice in both models and sizes; they offer excellent quality at a very competitive price. High-quality aluminium, which makes it impact, dust and water resistant, anti-magnetic and rust proof. For every packaging or transport challenge, the Viking range can provide you with an economic solution.

Optimum protection for storage and transport

Rely on your Viking in all circumstances! Whether you need an inexpensive box for transport and storage of basic materials, a box for costly electronic equipment, or even one for the transportation of dangerous goods.
